Vertical Auger Tube Liner

Do you want to protect/repair your upright unload auger tube? Do this easily with our pre-fit tube. This auger tube lines your existing tube before it wears thin and you have to replace your grain tank. It also includes a sump kit due to holes in the grain tank floor near the vertical tube. Replacing your grain tank is costly.

This can be done for a fraction of the cost.

PN#/0001FSVT/W/RR/SK

Cost: \$670, plus shipping

Kit includes: vertical liner, top repair ring, and a 4-piece sump kit to weld in grain tank
